Introducing:

Roman Cobble Green Permeable Paver

Standard Finish

Antiqued Texture™ Finish

Permeable pavers are the latest environmentally-friendly hardscape MONO-CAST® One-Piece paver product from CST.

- Permeable pavers with storage bed systems may be used to meet the groundwater recharge requirements of the NJDEP.
- LEED Point eligibility for sustainable sites.
- Infiltrate, filters and decreases stormwater run-off rate.
- Meets U.S. EPA stormwater performance criteria as a best management practice (BMP).

CST's Roman Cobble Green 6"x9" Permeable Paver is the same overall dimension as our standard 6"x9" paver allowing the designer to transition from traditional pavers to permeable pavers seamlessly within the same application.

Roman Cobble Green 6"x9" 8cm
