NOTE: Available in antiqued texture only.

**PRODUCT DETAILS**

- Compressive strength - The average compressive strength shall not be less than 8000 PSI.
- Resistance to Freeze Thaw Cycle - Dry weight loss not to be greater than 1% of weight when subjected to 50 cycles of freezing and thawing.
- Absorption - The average absorption of test samples shall not be greater than 5%.
-Made according to ASTM C936 specifications.

**AVAILABLE COLORS**

- Antique Grey
- Butternut
- Hickory Blend
PATTERN IDEAS FOR THIS SERIES:

2-Size Herringbone Pattern
Using Vienna Classic Large Cube
Vienna Classic Large Cube Contains:
6x12 and 12x12

3-Size Random Herringbone Pattern
Using Vienna Classic Small Cube
Vienna Classic Small Cube Contains:
3x6, 6x6 and 6x9

You will have some pieces left over. It is a random pattern, so you should be able to add them in, or use them for cuts.

In order to make this pattern using only the Vienna Classic Small Cube, you will have to modify (for each cube use) three of the 6x6 pieces by cutting them in half (making two 3x6) and using 3 of the 6x9 pieces in place of the 3x6, 6x6 combo rows. By doing this, you will make the cube capable of a 1:1:1 random herringbone design.

**The Five-Size Random Pattern is determined by the length of the horizontal and vertical seams. The shorter the straight lines, the more random the pattern. The most random of patterns won’t have seams exceeding the length of all five pieces, either horizontally or vertically. A random pattern is the best option when using just the Vienna Classic Small Cube since the piece count won’t work for a 1:1:1 pattern.**
